INDUSTRY HIGHLIGHT

PORTUGAL REMAINS EUROPE'S LEADING BICYCLE AND E-BIKE EXPORTER IN 2021

The Portuguese e-bike and bicycle export statistics in 2021 totalled €594 million, an increase of 39% when compared with 2020.

Just to name a few key players, Portugal hosts one of the largest bike assembly plants in Europe (RTE), one of the leading European manufacturers of bike rims and wheels (Rodi), the first company in the world to weld aluminum frames with robots (Triangle's), a company that produces the lightest bike saddle in the world (Gelu), and a highly automated carbon frame factory for large-scale production (Carbon Team).

The latest announcement in the Portuguese soft mobility sector regards the creation of Bikinnov - Bike Value Innovation Center - Association, which will focus on innovation and development, and manage a technological centre for the industry. Furthermore, Portuguese firm Bikap has just started operating a new, carbon-neutral e-bike production facility, with an annual capacity of up to 50,000 units.
