

Technical Center of Textile and Apparel

About CTTH

Based in Casablanca, CTTH is a Technical Center that serves companies in the Textile and Apparel Sector by providing a comprehensive array of services.

We spearhead national and international Research and Development projects, focusing on the holistic enhancement of products, processes, and services across the entire value chain, with a strong commitment to sustainability and digital transformation.

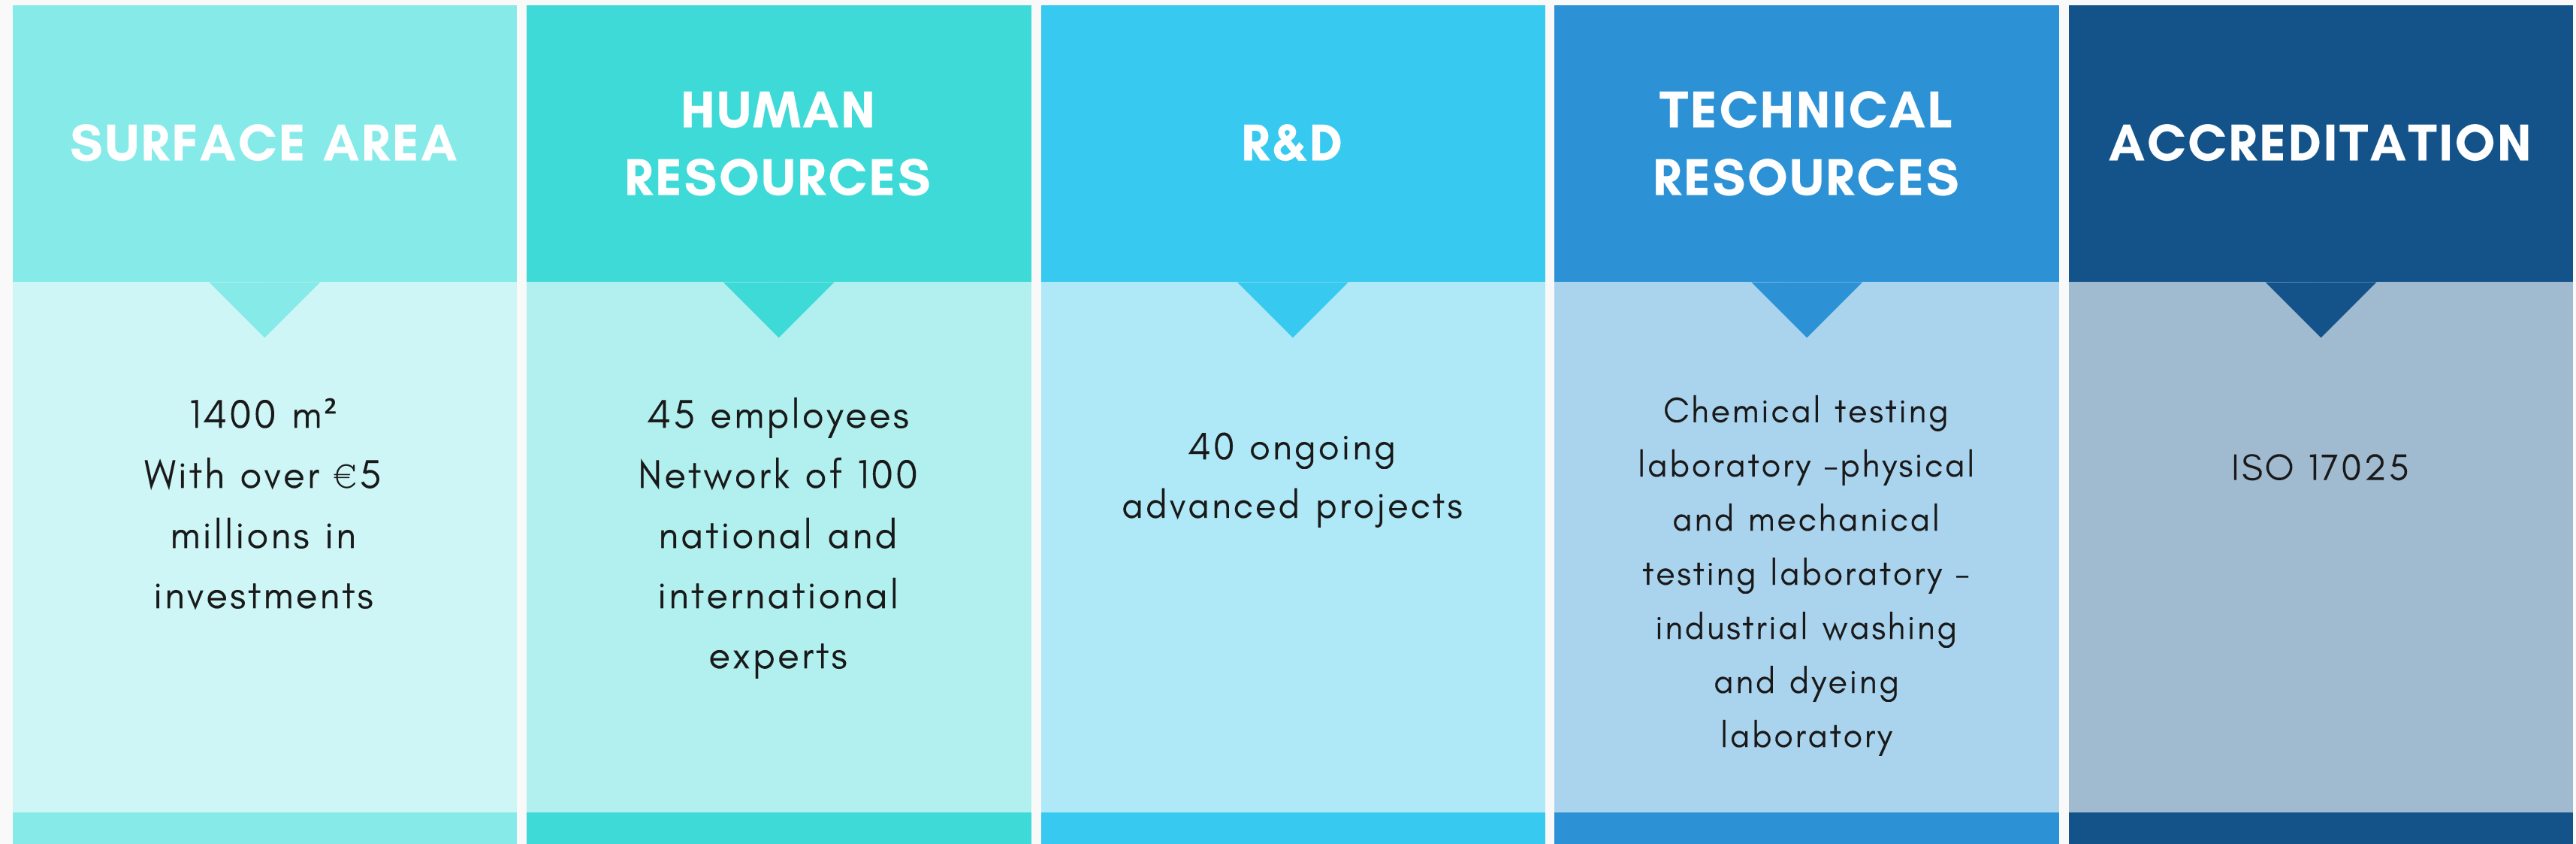

Sustainability

Fostering sustainable business practices in chemicals policy, circular economy, and industrial emissions.

Digital Transformation

Integrating new technologies and optimizing processes, to help businesses adapt, enhance efficiency, and stay competitive in a fast-evolving industry.
